

The Vermont MSWLF Permitting Program is technically comparable to, no less stringent than, and equally as effective as the revised Federal Criteria. Vermont will implement its MSWLF permit program through enforceable permit conditions. To ensure compliance with the Federal Criteria, Vermont has revised its current permit requirements through the creation of procedures. These revisions occur in the following areas:

1. The adoption of the following definitions as required by the revised Federal Criteria, 40 CFR 258.2: active life, active portion, composite liner, earthen daily cover, existing MSWLF unit, final cover system for lined landfills, final cover system for unlined landfills, lateral expansion, municipal solid waste landfill unit, new MSWLF unit, 100-year flood, and washout.

2. Compliance with the new location restrictions of 40 CFR 258.10, 258.14, and 258.15, which pertain to airport safety, seismic impact zones, and unstable areas.

3. Compliance with the new operating criteria of 40 CFR 258.20, 258.23, 258.26, 258.28, and 258.29 which pertain to procedures for excluding the receipt of hazardous waste, explosive gases control, run-on/run-off control systems, liquids restrictions, and recordkeeping requirements.

4. Compliance with the design criteria of 40 CFR 258.40.

5. Compliance with the requirements of 40 CFR 258.50, 258.51, 258.53, 258.54, and 258.55 which pertain to ground-water monitoring and the requirements of 40 CFR 258.56, 258.57, and 258.58 which pertain to corrective action.

6. Compliance with the closure and post-closure criteria of 258.60 and 258.61.

7. Compliance with the financial assurance criteria of 40 CFR 258.73, which pertain to financial assurance for corrective action.

The Vermont Department of Environmental Conservation will update the permits of existing municipal solid waste landfills scheduled to remain open after the effective date of 40 CFR part 258, to assure compliance with current state requirements. The State of Vermont is not asserting jurisdiction over Tribal land recognized by the United States government for the purpose of this notice. Tribes recognized by the United States government are also required to comply with the terms and conditions found at 40 CFR part 258.

Section 4005(a) of RCRA, 42 U.S.C. 6945(a) provides that citizens may use the citizen suit provisions of section

7002 of RCRA, 42 U.S.C. 6972 to enforce the Federal MSWLF Criteria set forth in 40 CFR part 258 independent of any State/Tribal enforcement program. As EPA explained in the preamble to the final MSWLF criteria, EPA expects that any owner or operator complying with provisions in a State/Tribal program approved by EPA should be considered to be in compliance with the Federal Criteria. See 56 FR 50978, 50995 (October 9, 1991).

Today's action takes effect on the date of publication. EPA believes it has good cause under section 553(d) of the Administrative Procedure Act, 5 U.S.C. 553(d), to put this action into effect less than 30 days after the publication in the Federal Register. All of the requirements and obligations in the State's program are already in effect as a matter of state law. EPA's action today does not impose any new requirements that the regulated community must begin to comply with. Nor do these requirements become enforceable by EPA as federal law. Consequently, EPA finds that it does not need to give notice prior to making its approval effective.

Compliance With Executive Order 12866

The Office of Management and Budget has exempted this notice from the requirements of section 6 of Executive Order 12866.

Certification Under the Regulatory Flexibility Act

Pursuant to the provisions of 5 U.S.C. 605(b), I hereby certify that this approval will not have a significant economic impact on a substantial number of small entities. It does not impose any new burdens on small entities. This notice, therefore, does not require a regulatory flexibility analysis.

Authority: This notice is issued under the authority of sections 2002, 4005 and 4010(c) of the Solid Waste Disposal Act as amended, 42 U.S.C. 6912, 6945 and 6949a(c-c).

Dated: October 3, 1995.

John P. DeVillars,

Regional Administrator.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention (CDC)

Injury Prevention and Control Advisory Committee Meeting

The National Center for Injury Prevention and Control (NCIPC),

Centers for Disease Control and Prevention (CDC) will convene the following meeting cosponsored by the American College of Emergency Physicians, American Health Information Management Association, American Hospital Association, Emergency Nurses Association, National Association of EMS Physicians, Society for Academic Emergency Medicine, Agency for Health Care Policy and Research, CDC, Health Resources and Services Administration, and the National Highway Traffic Safety Administration.

Name: National Workshop on Emergency Department Data.

Times and Dates: 3 p.m.-5 p.m., January 22, 1996, Registration; 7:30 a.m.-8:30 a.m., January 23, 1996, Registration; 8:30 a.m.-5:30 p.m., January 23, 1996; 8:30 a.m.-5:30 p.m., January 24, 1996; 8 a.m.-1 p.m., January 25, 1996.

Place: Holiday Inn Conference Center Decatur, 130 Clairmont Road, Decatur, Georgia, telephone 404/371-0204.

Status: Open to the public for observation and comment, limited only by the space available. The meeting room accommodates approximately 150 people. All interested persons are invited to participate in the workshop.

Purpose: The Workshop will provide a forum to review and refine a uniform Emergency Department (ED) data set that is being drafted by representatives of the organizations and agencies cosponsoring the workshop. The Workshop cosponsors seek to develop a uniform ED data set that will be recommended for routine use in creating a record of each ED patient encounter, meet the essential data needs of multiple ED data users, and be compatible with existing or emerging national standards for health data. Workshop deliberations will focus on ways to improve the draft uniform ED data set. Data elements will be considered in separate, concurrent sessions, each of which will review one of six discrete groups of data elements: Demographic and identifying data, administrative data, illness/injury incident data, ED arrival and initial assessment data, ED procedure and results data, and ED diagnosis and outcome data. Each breakout group will present a summary of its work in a plenary session. The recommendations that emerge from the Workshop and additional recommendations solicited after the meeting will be used by the workshop cosponsors to complete the data set. Further Workshops will be needed to incorporate lessons learned from practical experience, research findings, and other advances in health data systems.

Agenda items are subject to change as priorities dictate.

Contact Person for More Information: Mr. Paul Burlack, Public Health Advisor, Division of Acute Care, Rehabilitation Research, and Disability Prevention, NCIPC, CDC, 4770 Buford Highway NE., M/S F-41, Atlanta, Georgia 30341-3724, telephone 770/488-4031.

Dated: October 27, 1995.

John C. Burckhardt,

Acting Director, Management Analysis and Services Office, Centers for Disease Control and Prevention (CDC).

BILLING CODE 4163-18-M

Board of Scientific Counselors, National Institute for Occupational Safety and Health: Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), the Centers for Disease Control and Prevention (CDC) announces the following committee meeting.

Name: Board of Scientific Counselors, National Institute for Occupational Safety and Health (BSC, NIOSH).

Times and Dates: 1 p.m.-5 p.m., November 20, 1995; 9 a.m.-12 noon, November 21, 1995.

Place: The Washington Court Hotel, Ballroom East, 525 New Jersey Avenue NW., Washington, DC 20001.

Status: Open—1 p.m.-5 p.m., November 20, 1995; Closed—9 a.m.-9:20 a.m., November 21, 1995; Open—9:20 a.m.-12 noon, November 21, 1995.

Purpose: The Board reviews research activities to provide guidance on the quality, timeliness, and efficacy of the Institute's programs.

Matters to be Discussed: Agenda items include a report from the Director of NIOSH, an update on the National Occupational Research Agenda, NIOSH Agriculture Program, a legislative report, a report on workplace violence, a report from the National Foundation for the Centers for Disease Control and Prevention, Inc., an evaluation of the construction program, and future activities of the Board.

Agenda items are subject to change as priorities dictate.

Contact Person for More Information: Richard A. Lemen, Ph.D., Executive Secretary, BSC, NIOSH, and Deputy Director, NIOSH, CDC, 1600 Clifton Road NE, Mailstop D-35, Atlanta, Georgia 30333, telephone 404/639-3773.

Dated: October 30, 1995.

Carolyn J. Russell,

Director, Management Analysis and Services Office, Centers for Disease Control and Prevention (CDC).

BILLING CODE 4163-19-M

National Institutes of Health

Proposed Data Collection Available for Public Comment

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the

National Institutes of Health (NIH), National Cancer Institute (NCI) will publish periodic summaries of proposed projects. To request more information on the proposed project, call Jeffery P. Struewing, M.D., Senior Research Investigator, at (301) 496-4375.

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Send comments to Jeffery P. Struewing, M.D. National Cancer Institute, Building EPN, Room 439, 6130 Executive Blvd MSC 7372, Bethesda, MD 20892-7372. Written comments should be received by January 2, 1996.

Proposed Project: Familial Cancer and the BRCA1 gene—NEW—This research study will determine how common a particular alteration in the BRCA1 gene occurs in Jewish individuals, and what the risk of cancer is in individuals who carry this alteration. With the assistance of Jewish community leaders in the Washington, D.C. area, Jewish volunteers will be recruited for the study. In order to determine how representative the volunteers are, a random sample will also be obtained from the Washington area. Jewish individuals and a portion of non-Jewish individuals will be asked to complete the questionnaire. The questionnaire will include a brief personal medical history, and a detailed family history of cancer. Participants will be notified of the overall study results, which may include recommendations about genetic testing and the availability of testing programs.

Number of respondents	Number of responses per individual	Average burden (hours)
7700	1	.33

Philip D. Amoroso,

NCI Executive Officer.

BILLING CODE 4140-01-M

National Institute of Environmental Health Sciences; Division of Intramural Research; Proposed Data Collection Available for Public Comment and Recommendation

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the National Institute of Environmental Health Sciences (NIEHS) will publish periodic summaries of proposed projects. To request more information on the proposed project or to obtain a copy of the data collection plans and instruments, call the NIEHS Project Clearance Liaison, at (919) 541-5047.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: Effects of Chronic Occupational Exposure to Pesticides on Neurological Function in Farm workers—New—A cross-sectional study will be conducted of 147 farmworkers exposed to pesticides and 179 unexposed control subjects with other jobs. Pesticide exposure will be evaluated with a questionnaire that collects information on general work history, work with pesticides, and work practices. Neurological function will be assessed with a neurobehavioral test battery and with quantitative tests of somatosensory function, equilibrium, and tremor. The data collected in this study will elucidate the association between chronic occupational exposure to pesticides and neurological dysfunction. Burden estimates are as follows:

Number of respondents	Number of responses per respondent	Average burden per response (hours)
147 farmworkers	1.92	1.14
179 control subjects	1.92	1.14
